

HealthConnect Clinic Experience Lab: Professional Dashboard & Report Framework

1. Executive Summary & Core Vision

The HealthConnect Clinic Experience Lab dashboard is engineered to transform raw transactional logs into executive-ready intelligence. By tracking 5,000 clinical records, the reporting architecture bridges the gap between raw data pipelines and actionable operational policy.

2. Key Performance Indicator (KPI) Summary Table

Operational Metric	Observed Benchmark	Strategic Significance
No-Show Rate	48.46%	Quantifies total structural capacity leakage, demanding aggressive automated reminders.
Attendance Rate	46.28%	Represents baseline appointment fulfillment under unoptimized scheduling conditions.
Booking Lead Time	29.64 Days	Highlights the extended temporal decay window between scheduling and attendance.
Clinic Wait Time	24.19 Minutes	Measures on-site processing friction affecting patient satisfaction and retention.
Travel Distance	10.11 KM	Serves as a geographic barrier metric requiring targeted remote or outreach support.

3. Dashboard Architecture & Interactive Modules

- **Overview & KPI Tiles:** High-level summary cards displaying aggregate attendance ratios, total volume, and friction averages.
- **Temporal Decay Analysis:** Interactive box plots mapping booking lead times against attendance failures to identify high-risk scheduling thresholds.
- **Geospatial Heat Mapping:** Distance distribution models highlighting patient clusters beyond the 10 km threshold.
- **Cross-Track Integration Panel:** Real-time feeds providing feature weights and risk

scores directly to downstream machine learning models.

4. Professional Formatting & Design Standards

1. **Visual Hierarchy:** Clear heading progression (<h1> through <h3>) ensures scannability across executive summaries.
2. **Data Density:** Structured tables utilize bold headers and uniform cell padding to maintain readability without visual clutter.
3. **Color Palette:** Strict adherence to neutral dark slate typography over clean light backgrounds, maintaining a corporate and academic aesthetic.
